

Installing Alive⁵ on Squarespace

Requirements: You'll need an alive5.com SMS account. After you've got that, you will need to create a Widget and grab the HTML/Javascript code and use it here.

To add Alive⁵ to your Squarespace site, you will have to include the Alive⁵ Code into the header under Code Injection.

1. Open Code Injection

In the Home Menu, click Settings, click Advanced, and then click Code Injection.

2. Add HTML Code

In the Header Portion, add the Alive5 Code.

← Advanced

CODE INJECTION

HEADER

Enter code that will be injected into the 'head' tag on every page of your site.

```
1 <script type="text/javascript">
2 var alive5_widget_code_id = "XXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXX";
3   var alive5_org = "alive5";
4   var alive5_widget_template_id = "3";
5   var alive5_is_alive5_phone_number = "Y";
6   var alive5_sms_phone_number = "XXXXXXXXXXXX";
7
8   function alive5_inc() {
9     var wsa_host = (("https:" == document.location.protocol) ? "https://" : "http://");
10    var js = document.createElement("script");
11    js.setAttribute("language", "javascript");
12    js.setAttribute("type", "text/javascript");
13    js.setAttribute("src", wsa_host + "go-dev0.websitealive.com/js/alive5.1.0.js");
14    document.getElementsByTagName("head").item(0).appendChild(js);
15  }
16
17  if (window.attachEvent) { window.attachEvent("onload", alive5_inc); }
18  else if (window.addEventListener) { window.addEventListener("load", alive5_inc, false); }
19  else { document.addEventListener("load", alive5_inc, false); }
20 </script>
```
